Net result	EUR -711.69

Management Context

FY2024 established the company's baseline for future investor reporting.

The period should be understood as early formation and operating baseline rather than evidence of commercial scale.

Management's priority after FY2024 was to improve documentation quality, preserve source-backed claims, and prepare for more structured financial, grant, and investor communication.

Evidence Boundary

The reviewed source set does not establish unsupported revenue, customers, investments, valuation, regulatory authorization, or clinical deployment.
