Evidence boundary

State what the source supports, what remains pending, and which claims must not be made without additional evidence.

Use for

Audited or signed statements, interim balance sheets, profit and loss records, and approved accounting summaries.

Avoid

Forecasts, valuation claims, customer claims, or unaudited figures unless the source explicitly supports them.

Financial Performance

Use larger line-item cards when exact figures are available. Keep labels short and tie every figure to the reporting period.

Publication check

Before delivery, verify figures, wording, page breaks, source boundaries, prohibited wording, and whether sensitive local paths are absent.

Management note

State what was confirmed, what was excluded, and what requires later evidence before public or investor distribution.
